Dr. Joshua Lederberg
Department of Genetics
University of Wisconsin
Madison 6, Wisconsin

Dear Joshua:

The reference on phage induced variation in coli is a monograph by Hoder called "Bakterienveränderung durch Bakteriophagewirkung", published in Berlin in 1932. The only place I know where you can get it is the library of the New York Academy of Medicine in New York City.

Things are going very well here and I hope you find your new set-up the same.

Sincerely,

Barry Commoner
